2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

Bend Elementary School is located 140 miles north of Sacramento, California in rural Tehama County. The school is one of five in the district and serves approximately 100 transitional Kindergarten through 8th grade students. It is known for its inviting campus, strong community values, and small class sizes. Social/emotional learning and physical and health education are an integral part of the student educational experience in addition to English Language Arts and Mathematics. Bend excels as a place of learning that promotes creativity, curiosity, and respect where literacy is embedded into Science and Social Science content areas. At Bend, we firmly believe that "All students can learn, and TOGETHER we make the difference. "

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Textbooks and instructional materials noted below were adopted by the Evergreen Union School District School Board in the year noted below. Health materials are continually updated, as new versions become available, to remain consistent with changes in the CA Health Framework and in local communities. The Reading/Language Arts, Mathematics, Social Science, and Science adoptions are all from the most recent list of standards-based materials adopted by the State Board of Education. All students have access to their own assigned copy of the curriculum.

School Facility Conditions and Planned Improvements

The Bend School campus received an overall GOOD rating on the Facility Inspection Tool (FIT) in October of 2022. The systems, cleanliness, electrical, restrooms/fountains, safety, structural, and external systems are in all in GOOD repair at this attractive rural site; the interior received a rating of FAIR. Repairs needed have been recorded and actions are being put in place to ensure repairs, if they have not already been completed.

We have continued to promote the physical safety of students at Bend Elementary by adding fencing around our perimeter, ensuring our lockdown and fire alarm horns are working effectively, updating our surveillance cameras to give us better images, and consistently checking our two-way radios and Aeries Communication for staff to communicate concerns and communicate with families, respectively. Window blinds, window tinting, and the use of magnets on all locked doors are used to ensure safety should we need to go into lockdown. We have installed a generator to ensure we have potable water during planned public safety power shutoffs. Our classroom roofs were repainted during the summer of 2021. In addition, the blacktop was resurfaced and concrete was repaired at that time.

Any issues regarding facility repair are either a) promptly brought to the attention of the EUSD Safety Committee, who meets monthly, or more often if need be, to address areas that are a safety concern, or b) submitted as a maintenance request to the EUSD Maintenance Department.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Families are viewed as critical members of the school leadership team and are actively offered a variety of options for contributing to the school's and student's success. Many family and community members volunteer at the school and participate as decision makers on the Bend Site Council and help across the campus. We also have a very involved Parent Club who supports the school in building community, fundraising, and supporting students.

The school uses monthly newsletters, frequent emails, and social media posts to communicate with families to keep them involved.

Volunteers are allowed on campus to provide support to teachers and students. To volunteer at our school, please call our site Secretary at 530-527-4648.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Suspensions	0.00	2.56	2.45
Expulsions	0.00	0.00	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

2022-23 School Safety Plan

We revise our Comprehensive School Safety Plan, annually. The plan includes a summary of Bend's vision, goals, and action plan to promote safety; general policies; and procedures for emergencies, exit route maps, and phone trees. Bend Elementary School staff and students must be prepared for a variety of emergencies. This well-proposed plan for prompt and efficient action will minimize injuries and loss of life during a disaster. In every case, staff implements the following protocol - otherwise known as the "OODA" loop (observe, orient, decide, act). This plan was last reviewed, updated and Board approved in September 2022.

In addition to the Comprehensive School Safety Plan, the EUSD Covid Prevention Plan and EUSD Student Covid Safety Plan provides details of protocols in place in support of staff and student health in light of Covid-19. Both plans are available on our school website and in the school office, and we share it with all staff during a school wide staff meeting each August.

We practice fire drills, monthly, lockdown drills, every other month, and hold trainings for staff on emergency preparedness and Covid protocols, annually.

2021-22 Types of Services Funded

Title I funds are used to support our paraprofessional salaries and benefits for direct student support along with Professional Development for our staff. Additional Local Control Funding Revenues and other State Revenues are used to purchase standards based materials and to replenish consumable student materials, as well as support continued purchasing of technology to be placed directly in the classroom.

Concentration/supplemental revenues are used to provide increased and/or improved services to the students that generate those funds.

Professional Development

Evergreen Union School District supports and encourages various forms of professional development. There are two days before school starts devoted to staff development, which encompasses experts either inside or outside our school district providing information to meet the unique needs of individuals and school sites. In addition, every Friday staff are released from instruction early so that they can participate as Professionals Learning in Community (PLC) opportunities; these times are devoted strictly to collaboration or deeper learning in specific areas needing further development or growth provided by experts in the content area or topic. State and local data, needs assessments, and staff surveys drive the professional development. The district continues to recognize a need to (re) build an exemplary system with a focus to simplify, clarify, and prioritize/align the social emotional and academic instruction our students receive. Professional development across grade level and content area groups are presently focused on this opportunity to learn together and develop collective efficacy.

This table displays the number of school days dedicated to staff development and continuous improvement.
