Dear Parents/Families:

The current transmission rate for Tehama County is 74.2 This drop in transmission rate will keep us in the Substantial Transmission Tier for this week as described in the Tiered Enforcement Plan. The Tiered Enforcement Plan can be found on our [district website](#) under *About us* and *District Plans* along with other COVID-Related Documents that address symptoms and close contact.

Remember, if your child has symptoms, including a fever of 100.4 or greater, they need to stay home or will be sent home if they develop symptoms at school.

Update on Covid Numbers

We are beginning to see the number of positive individuals in our system decrease. We have had two days in a row without a case!! Hopefully this is a sign of good things to come. Below is a table that reflects the transmission rate of our county and then that of the state. As you can see, our region is beginning to see a decline in the number of cases.
